

Matéria: Língua Inglesa

Prof.: Jahnien de Almeida Ribeiro

Curso: Engenharia de Software

Semestre: 1º semestre

Aluno: Thiago Rafael C. T. da Silva

Atividade 5

Leitura de artigo científico:

1- Faça análise do abstract com as estratégias de leitura

2- Identifique estruturas s-v-o:

- The new era creates new opportunities and poses a number of challenges **(S)** / for education to adapt **(V)** / to the emerging prospects of digital transformation of educational activities **(O)**.
- The article **(S)** / provides a brief analysis **(V)** / of domestic and foreign works on the problems of digitalization in education **(O)**.
- It is shown that, along with the benefits offered by the digital space, **(S)** / there are many problems of its use **(V)** / in educational activities **(O)**.
- The solution of these problems is primarily associated with the training of teachers to use new **(S)** / opportunities for the organization **(O)** / and implementation of distance learning forms, the development of their digital competencies **(O)**.
- At the same time, it has been shown that in both foreign and domestic universities, students in their **(S)** / majority prefer contact forms **(V)** / of classes and want a live dialogue with teachers, despite their rather high digital literacy **(O)**.
- Therefore, the emerging digital didactics is very important to determine the ratio of traditional and distance **(S)** / learning will be able to provide **(V)** / a comfortable learning environment and a high level of training of future specialists **(O)**.
- These and other questions **(S)** / can be answered **(V)** / by digital didactics, which has not yet been developed by scientists and educational practitioners **(O)**.

Obs.: Todas podem estar erradas, pois não entendi ao certo como faz essa separação, na aula passada só separei os verbos, porém quase todas que fiz assim estavam erradas.

3º identifique cognatos e falsos cognatos

Cognatos:

- era
- creates
- opportunities
- number
- education
- adapt
- emerging
- digital
- transformation
- activities
- article
- analysis
- domestic
- problems
- digitalization
- benefits
- offered
- space
- many
- new
- solution
- primarily
- associated
- training
- organization
- implementation
- distance
- competencies
- universities
- students
- majority
- prefer
