AT7- Atividade Leitura de Texto - Grau de Adjetivos e Advérbios

PARTE 1 - Grau de Adjetivos e Advérbios

Your Amazing Brain

TEXT BY DOUGLAS A. RICHARDS

You carry around a three-pound mass of wrinkly material in your head that controls every single thing you will ever do. From enabling you to think, learn, create, and feel emotions to controlling every blink, breath, and heartbeat—this fantastic control center is your brain. It is a structure so amazing that a famous scientist once called it “the most complex thing we have yet discovered in our universe.”

Your brain controls everything you do.

→ **Your brain is faster and more powerful than a supercomputer.**

Your kitten is on the kitchen counter. She's about to step onto a hot stove. You have only seconds to act. Accessing the signals coming from your eyes, your brain quickly calculates when, where, and at what speed you will need to dive to intercept her. Then it orders your muscles to do so. Your timing is perfect and she's safe. No computer can come close to your brain's awesome ability to download, process, and react to the flood of information coming from your eyes, ears, and other sensory organs.

→ **Your brain generates enough electricity to power a lightbulb.**

Your brain contains about 100 billion microscopic cells called neurons—so many it would take you over 3,000 years to count them all. Whenever you dream, laugh, think, see, or move,

it's because tiny chemical and electrical signals are racing between these neurons along billions of tiny neuron highways. Believe it or not, the activity in your brain never stops. Countless messages zip around inside it every second like a supercharged pinball machine. Your neurons create and send more messages than all the phones in the entire world. And while a single neuron generates only a tiny amount of electricity, all your neurons together can generate enough electricity to power a low-wattage bulb.

→ **Neurons send information to your brain at more than 150 miles (241 kilometers) per hour.**

A bee lands on your bare foot. Sensory neurons in your skin relay this information to your spinal cord and brain at a speed of more than 150 miles (241 kilometers) per hour. Your brain then uses motor neurons to transmit the message back through your spinal cord to your foot to shake the bee off quickly. Motor neurons can relay this information at more than 200 miles (322 kilometers) per hour.

→ **When you learn, you change the structure of your brain.**

Riding a bike seems impossible at first. But soon you master it. How? As you practice, your brain sends "bike riding" messages along certain pathways of neurons over and over, forming new connections. In fact, the structure of your brain changes every time you learn, as well as whenever you have a new thought or memory.

→ **Exercise helps make you smarter.**

It is well known that any exercise that makes your heart beat faster, like running or playing basketball, is great for your body and can even help improve your mood. But scientists have recently learned that for a period of time after you've exercised, your body produces a chemical that makes your brain more receptive to learning. So if you're stuck on a homework problem, go out and play a game of soccer, then try the problem again. You just might discover that you're able to solve it.

FAMILIARIZAÇÃO COM O TEXTO:

- 1- Observando a ilustração e o título, descreva o que você pode antecipar sobre o conteúdo do texto.

De acordo com o título e a imagem pode-se inferir que o texto se trata de como o nosso cérebro funciona e com seu funcionamento é incrível.

- 2- Utilizando a estratégia skimming, faça uma leitura rápida do texto e confirme ou descarte suas hipóteses.
- 3- Observe o layout do texto. A apresentação difere de outros textos vistos anteriormente? Em sua opinião, esse layout favorece a compreensão do texto?

Sim, e este layout favorece a compreensão do texto, pois divide o texto em seus tópicos, assim, tornando a leitura mais eficaz.

4- Utilize a estratégia scanning para localizar as seguintes informações:

1º - Parágrafo

- O peso do cérebro: **three-pound**

2º Parágrafo

- Os órgãos que passam informação ao cérebro: **eyes, ears and other sensory organs**

3º Parágrafo

- O número aproximado de neurônios no cérebro: **100 billion**

4º Parágrafo

- Os neurônios podem retornar à informação para o pé à velocidade de: **200 miles**

6º Parágrafo

- As atividades físicas que podem facilitar a aprendizagem: **running or basketball**

5- Após ler o texto mais detalhadamente, responda as perguntas a seguir:

- a) No 1º. parágrafo, o autor ressalta incrível capacidade do cérebro em controlar tudo o que fazemos. Ao concluir, como ele define o cérebro?

Amazing.

- b) No 2º. e 3º. parágrafos, para melhor ilustrar o funcionamento do cérebro, o autor compara o mesmo a três objetos de nosso conhecimento. Quais são eles?

Supercomputer, pinball machine, phone.

- c) No 5º. parágrafo, o autor afirma que a estrutura do cérebro muda. Em que circunstância isso acontece?

Toda vez que aprendemos.

6- Numere as orações abaixo de acordo com a sequência descrita no 4º. Parágrafo:

3- Utilizando neurônios motores, o cérebro transmite a mensagem de volta através da medula espinhal.

1- Um inseto pousa em nosso pé.

4- O cérebro processa a informação e reage.

5- Em resposta ao comando do cérebro, o pé movimenta-se para afugentar o inseto.

2- Neurônios sensoriais passam a informação à medula espinhal e está ao cérebro.

PARTE 2

1) Agora, identifique as formas comparativas/superlativas de adjetivos nos textos abaixo:

- a) Exercise helps make you **smarter**. It is well known that any exercise that makes your heart beat faster, like running or playing basketball, is great for your body and can even help improve your mood. But scientists have recently learned that for a period of time after you've exercised, your body produces a chemical that makes your brain more receptive to learning.
- b) The world's **largest** river in watershed area, number of tributaries and volume of water discharged, the Amazon has only one rival as the world's **longest**: the Nile.
- c) The river's watershed includes the world's **largest** and **wettest** tropical plain.
- d) The canopy shelters the Earth's **richest** and **most diverse** ecosystem.
- e) In 2008 the performance of the economy was **less satisfactory than** in the previous year.

PARTE 3

CONSOLIDAÇÃO REFERÊNCIA PRONOMINAL E GRUPOS NOMINAIS

1- Em todo o texto, "Your Amazing Brain", o autor usa o pronome you. Observe, por exemplo, a 1ª linha:

You carry around a three-pound mass of wrinkly material in your head that controls every single thing you will ever do.

A quem o autor se refere? **Ao leitor.**

2- Em sua opinião, que efeito a escolha desse pronome pode ter para o leitor?

O leitor pode se sentir mais imerso na leitura, pois o autor escreveu como se estivesse conversando com o leitor.

3- A que/quem se referem as palavras em negrito nos trechos transcritos abaixo:

a) Segmento extraído do texto: Your Amazing Brain.

Your kitten is on the kitchen counter. **She's** about to step onto a hot stove. **You** have only seconds to act. Accessing the signals coming from your eyes, your brain quickly calculates when, where, and at what speed you will need to dive to intercept **her**. Then **it** orders your muscles to do so. Your timing is perfect and **she's** safe.

She: O gato

You: O tutor do gato

Her: Interceptar o gato

It: O cérebro

She: O gato

- b) Segmentos extraídos do texto "Following the Rules" (Atividade de texto feito em sala).

"Most people in Europe wouldn't notice a wedding ring, but in a traditional society **it** can make a real difference," says the Lebanese-born shoe designer, **who** has traveled widely throughout the U.A.E. and Oman. "There are a different set of rules here."

It: Ring **who:** Shoe designer

Dark glasses can reduce harassment, but be sure to take **them** off when you speak to people directly.

Them: Dark glasses

"Now, when I travel with my husband I often let **him** deal with people I don't want to talk to."

Him: The husband

- 4- Sublinhe os grupos nominais e circule seus respectivos núcleos nos trechos extraídos do texto "Your Amazing Brain":

No computer (**computer**) can come close to your brain's awesome ability (**ability**) to download, process, and react to the flood of information (**flood**) coming from your eyes (**eyes**), ears (**ears**), and other sensory organs (**organs**).

Whenever you dream, laugh, think, see, or move, it's because tiny chemical and electrical signals (**signals**) are racing between these neurons (**neurons**) along billions of tiny neuron highways (**highways**).

Believe it or not, the activity (**activity**) in your brain (**brain**) never stops. Countless messages (**messages**) zip around inside it every second (**second**) like supercharged pinball machine (**machine**).

Michelangelo's first painting bought

FORT WORTH, TEXAS – THE KIMBELL ART MUSEUM WILL SOON BE THE ONLY US MUSEUM TO DISPLAY A MICHELANGELO PAINTING AFTER ACQUIRING HIS EARLIEST KNOWN WORK, A RARE TREASURE THAT WAS TUCKED AWAY AND DOUBTED AS AUTHENTIC FOR MORE THAN A CENTURY.

Published: 7:00AM BST 14 May 2009

"The Torment of Saint Anthony" by Michelangelo, believed to be his earliest known work. Photo: AP

The museum declined to disclose how much it paid for "The Torment of Saint Anthony", a 15th-century oil and tempera painting on a wood panel that depicts scaly, horned, winged demons trying to pull the saint out of the sky. Experts believe he painted it when he was only 12 or 13 years old.

Only four such works – including this one – by the artist exist, and two of them are unfinished. Most of his paintings are frescoes, the famous scenes on the ceiling and wall of Rome's Sistine Chapel.

"This is one of the greatest rediscoveries in the history of art," Eric M Lee, the Fort Worth museum's director, said. "The evidence could not be

stronger. It's like a detective story, like a mystery, and it involves one of the greatest artists of all time."

The painting was exhibited as late as 1874 in Paris. But some questions about its authenticity had surfaced through the years, and after a London family acquired it in the 1900s, the painting was kept privately and largely forgotten in the art world, Mr Lee said.

Last summer an art dealer bought it for nearly \$2 million at a Sotheby's auction and then took it to New York's Metropolitan Museum of Art, where one department chairman shared his hunch that it was the work of the Renaissance artist, Lee said.

Experts in the Met's paintings conservation department carefully cleaned it by removing decades of dirt, as well as paint layers that art restorers had applied through the ages to fill in chips or dull areas, Mr Lee said.

When they examined the painting further using X-rays and infrared technology, they were able to see how the artist made certain brush strokes, scraped paint layers to achieve detail and even changed elements of the painting before the final version, Mr Lee said.

Museum experts said they determined it not only was Michelangelo's – based on similarities to his other works and the artist's stories of the piece as told to biographers – but also that it was his earliest work – based on its age and details in the painting. The confirmation came a few months ago, and then the Kimbell decided to buy it, Mr Lee said.

The generations of dirt and paint build-up had obscured the painting's identity, and some doubted its authenticity because a similar painting existed, Mr Lee added. But an art expert who extensively studied both paintings said the other was done in the 17th century.

Michelangelo's piece has previously been known as "The Temptation of Saint Anthony" because he was inspired by a similar engraving of that name while learning to be an artist. But after the Kimbell acquired the oil painting, Lee decided to change its name because that engraving depicts a different scene, he said.

The painting will be displayed at the Kimbell starting this fall after a summer exhibit at the Metropolitan Museum of Art in New York. Lee said he may loan the painting to other museums later for travelling exhibits.

"This could not be a rarer object," Mr Lee said. "That's why this is such an extraordinary opportunity."

(Disponível em: <<http://www.telegraph.co.uk/news/worldnews/northamerica/usa/5321421/Michelangelos-first-painting-bought.html>> Acesso em: 20 julho 09.)

1- Você lerá um texto sobre um dos trabalhos de Michelangelo. Antes de começar a leitura, porém, leia o parágrafo abaixo sobre esse famoso artista:

Michelangelo di Lodovico Buonarroti Simoni (March 6, 1475 – February 18, 1564) was a Renaissance painter, sculptor, poet and architect. He is famous for creating the fresco ceiling of the Sistine Chapel, one of the most stupendous works in all of Western art, as well as the "Last Judgment" over the altar, and "The Martyrdom of St. Peter" and "The Conversion of St. Paul" in the Vatican's Cappella Paolina; among his many sculptures are those of the Pieta and David, again, sublime masterpieces of their field; he also designed the dome of St. Peter's Basilica.

(Disponível em: <<http://www.artinthepicture.com/artists/Michelangelo/Biography/>>. Acesso em 23 julho 2009.)

a) Dentre as informações apresentadas acima, há alguma que você desconhecia sobre Michelangelo?

A maioria de suas obras.

b) Você sabe de outros fatos sobre o artista, que não foram mencionados no parágrafo acima.

Não.

2- Agora leia o texto da página anterior, observando de modo especial o título, 1º parágrafo em negrito, figura e legenda, além de cognatos e palavras/expressões que você já conhece em inglês. Em seguida, descreva em uma sentença o assunto tratado.

O provável assunto que será tratado no texto de acordo com o título e o layout é a compra da primeira obra de Michelangelo.

3- Volte ao texto, desta vez para localizar as informações abaixo. Não se esqueça de usar a estratégia scanning, isto é, leia seletivamente, buscando apenas os dados necessários para realizar a atividade.

- a) nome do museu que comprou a obra de Michelangelo: **O KIMBELL ART MUSEUM**
- b) quantia paga pelo museu para adquirir a obra: **2 million**
- c) título da obra descoberta: **The Torment of Saint Anthony**
- d) período em que a obra foi realizada: **1874**
- e) tipo de pintura que caracteriza os trabalhos de Michelangelo: **Frescoes**
- f) motivo pelo qual a obra ficou desaparecida por mais de um século, desde a sua última exibição pública em Paris, em 1874: **Authenticity**
- g) quantia paga pela obra, adquirida em um leilão na Sotheby (tradicional casa de leilões inglesa): **2 million**
- h) tecnologia utilizada por peritos do Museu de Arte Metropolitana, em Nova Iorque, para descobrir a identidade do autor da obra: **X-rays and Infrared**
- i) título original da obra de Michelangelo: **The Temptation of Saint Anthony**
- j) razão pela qual Eric Lee (diretor do Museu em Fort Worth, no Texas), decidiu mudar o título original: **Because that engraving depicts a different scene**

3- Todos os vocábulos sublinhados nos trechos abaixo, retirados do texto, contêm prefixos e/ ou sufixos. Classifique e traduza-os de acordo com os significados que expressam, utilizando o quadro que segue:

PREFIXOS: (R) repetição (N) negação

SUFIXOS: (S) substantivo (M) advérbio de modo (I) advérbio de intensidade (T) advérbio de tempo (AC) adjetivo na forma comparativa (AS) adjetivo na forma superlativa

- The museum declined to disclose how much it paid for "The Torment of Saint Anthony"...

- Only four such works (...) by the artist exist, and two of them are unfinished.
- "This is one of the greatest rediscoveries in the history of art"....
- The evidence could not be stronger.
- But some questions about its authenticity had surfaced through the years...
- The painting was kept privately and largely forgotten in the art world, Mr Lee said.
- Last summer an art dealer bought it for nearly \$2 million...
- Experts in the Met's paintings conservation department carefully cleaned it ...
- Museum experts said they determined it not only was Michelangelo's - based on similarities to his other works and the artist's stories of the piece as told to biographers - but also that it was his earliest work - based on its age and details in the painting. The confirmation came a few months ago...
- Michelangelo's piece has previously been known as "The Temptation of Saint Anthony" because he was inspired by a similar engraving of that name while learning to be an artist.
- "This could not be a rarer object," Mr Lee said.

disclose (N) – revelar

greatest (AS) – o maior, o mais grandioso

stronger (AC) – mais forte

privately (M) – particularmente, em particular

dealer (S) – comerciante, negociante

carefully (M) – cuidadosamente

biographers (S) – biógrafos

painting (S) – pintura

previously (T) – anteriormente

engraving (S) – gravura

unfinished (N) – inacabado

rediscoveries (R) + (S) – redescobertas

authenticity (S) – autenticidade

largely (M) – em grande parte

conservation (S) – conservação

similarities (S) - semelhanças

earliest (AS) – o mais antigo, o primeiro

confirmation (S) – confirmação

temptation (S) – tentação

rarer (AC) – mais raro

CONSOLIDAÇÃO DO CONTEÚDO

1. No texto sobre a descoberta do primeiro trabalho de Michelangelo, o autor utiliza vários marcadores discursivos para melhor organizar as informações apresentadas. Observe os parágrafos a seguir e identifique os marcadores discursivos empregados, bem como as ideias que expressam:

- Experts in the Met's paintings conservation department carefully cleaned it by removing decades of dirt, as well as paint layers that art restorers had applied through the ages to fill in chips or dull areas, Mr Lee said.
- Museum experts said they determined it not only was Michelangelo's - based on similarities to his other works and the artist's stories of the piece as told to biographers - but also that it was his earliest work - based on its age and details in the painting. The confirmation came a few months ago, and then the Kimbell decided to buy it, Mr Lee said.
- The generations of dirt and paint build-up had obscured the painting's identity, and some doubted its authenticity because a similar painting existed, Mr Lee added. But an art expert who extensively studied both paintings said the other was done in the 17th century.

Oposição: but

Causa/Consequência: because

Adição: as well as, not only ... but also, and

Sequência cronológica: then, a few months ago

2. Qual o significado dos vocábulos destacados abaixo?

a) The Kimbell Art Museum will soon be the only US museum to **display** a Michelangelo painting after acquiring his earliest known work...

- ☐ Adquirir
- ☐ Exibir
- ☐ Buscar

b) ... a rare treasure that was **tucked away** and doubted as authentic for more than a century.

- ☐ Desprezado
- ☐ Violado
- ☐ Restaurado

c) .. It's **like** a detective story, **like** a mystery, and it involves one of the greatest artists of all time."

- ☐ Gosta
- ☐ Difere
- ☐ **Como**

d) Lee said he may **loan** the painting to other museums later for travelling exhibits.

OBS.: Esta questão não tem as alternativas no PDF.
